☐ Continuation Sheet Attached**Brief Description of Arguments to be Presented:**

Jennings does not show concurrent access by processor. Current application is deliberately stressing the I/O system with concurrent access of DMA writes and processor access. Cited section of Jennings shows that the memory is accessed by the DMA writes, but does not mention processor access.

An interview was conducted on the above-identified application on _____.

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
